Profile

I am an ambitious problem solver with a passion for online businesses, and I would love to join a team of like-minded developers. I have an experience of creating both logical and innovative solutions to complex web problems. I am very precise and thorough in everything I do and have a keen interest in technology and mobile applications.

Experience

Freelancing **2020 - Present**
I have been working as a web developer on fiverr for almost 7 months now and I have developed 7+ single page applications, 2 medium sized projects and a complete ecommerce website. I still continue to do so until i find my dream job.

Projects

Smart School – FYP **Sept 2021 - Dec 2021**
To automate the attendance system and dress code Inspection and manage homeworks, attendance, violations, complaints, visits, leave applications etc.

- Admin Panel (MERN)
- Teacher App (React native, RestAPI, MongoDB)
- Attendance System (MERN, YOLO v3, RFID)

Decor Bunny – Ecommerce store **Apr 2021 – Oct 2021**
An online printing and decoration store with all ecommerce functionalities like products listing, ordering, reviews, admin panel.

- Web App and Admin Panel (React, tailwind CSS)
- Photo Editor and uploader (React, Multer)
- Rest API (Express.js, Node.js, MongoDB)

Madadgar – Skill Hiring Platform **Mar 2021 – Nov 2021**
An online skill based hiring platform where a user can search for people with specific skill in a specific area and hire them for a job and track the progress until the job is completed and give a review.

- Web App and Admin Panel (MERN)
- FAQ Portal (MERN)
- Rest API (Express.js, Node.js, MongoDB)

Many other projects.... **Since 2019**
Checkout my github profile to find details about the other projects i have worked on.
